The 2014 sale price is **verified by three independent sources**: Hampden County Registry of Deeds, the Springfield assessor record card, and the seller's own SEC Form 8-K (Urstadt Biddle Properties). Anchor lineage runs Mott's ShopRite → A&P → Big Y (grocery) and W.T. Grant → Caldor's → Spag's → Burlington (discount).

SECTION 6

Financing & Encumbrances

NO RECORDED MORTGAGE

No mortgage is recorded against the parcels at Hampden County — a verified negative (the same scraper correctly finds mortgages on other properties).

Why: the seller's SEC filing states the sale was all-cash, funded from the buyer's corporate credit facility rather than property-secured debt — standard for a grocery-anchored REIT.

Related filing: a 2017 UCC financing statement with United Bank (book/page 21802-374).

Distress check: no foreclosure instrument found in the full county records pull. Bankruptcy not directly checked (requires a paid PACER account).

Other recorded instruments (Hampden County Registry of Deeds):

SECTION 11

Sources & Methodology

Every field in this profile was gathered from a general, reusable tool driven only by this property's address and owner name — no code is specific to Five Town Plaza. The same tools work on any property. Sources used:

Sources

- Springfield Assessor (ArcGIS ownportal CSV, already in DealSynq outputs/)
- Springfield Assessor commercial property record cards (assessors-search/assessors.php)
- Hampden County Registry of Deeds (search.hampdendeeds.com, ALIS platform)
- Phillips Edison & Company official leasing flyer
- SEC EDGAR (Phillips Edison Grocery Center REIT I 10-K Exhibit 21.1; Urstadt Biddle Properties Form 8-K)

Data-quality controls applied:

- **year_built field polluted with raw HTML link in original Springfield assessor CSV export**

Fetches actual record cards; got real year_built per building (1970-2004) instead of the broken field.

- **Naive building-sqft sum initially overcounted by 22% (65,340 sqft)**

One 'card' on 1761 Allen St had Structure Type=LAND, not a building -- excluded after checking field semantics, not just summing numbers.

- **Hampden Registry of Deeds and MA Secretary of State portals rate-limited/blocked further automated queries**

Backed off rather than force; pivoted to SEC EDGAR (a better, unblocked, MORE authoritative source given the owner is a public REIT).
